Chairman of Indonesian Gas Society (IGS) /
Senior Vice President for Government Program Assignment,
PT Pertamina (Persero)

The 4th IndoPACIFIC LNG Summit 2024 (IPLNG 2024)

Provides a critical and timely forum to convene global LNG value chain stakeholders to discuss Indonesia's and Asia Pacific's gas and LNG energy future, amidst growing pressure to transition low-carbon economies

As the region's governments grapple with the challenge of ensuring affordable, reliable and clean energy supply while accelerating economic recovery and growth, the world is contending with an unforeseen energy crisis with record level gas and LNG prices and tight market conditions. It is increasingly clear that the global economies are more reliant than ever on natural gas.

Discussion topics include the outlook for regional and global LNG supply & demand, current & future LNG projects, LNG spot pricing & portfolio. Through engaging leading experts from across the industry in candid and open dialogue, IPLNG 2024 aims to surface deep insights and advance discussions on collaborative strategies and action to capitalize on the prospects and opportunities, while countering challenges facing the global and regional gas and LNG markets.

The conference will focus on gas and LNG industry growth prospects & challenges, infrastructure needs, investment potential & access to funding.

Trading, future trends for long-term prices, carbon offset LNG & emission intensity clauses, among others. Set against a magnificent backdrop on the magical island of Bali in Indonesia, IPLNG 2024 presents an ideal opportunity for industry players to reconnect personally, deepen business relationships and forge new ties in expanding the role of gas and LNG in sustainable economic development.

CONFERENCE TOPICS

Keynote:

- Regional LNG Industry Outlook towards Net Zero Emissions
- Global Energy Perspective 2024 - 2025
- LNG Role in PLN Energy Transition
- The LNG Crystal Ball - Expert analysis, predictions, and insights
- Indonesia's strategy to achieve net-zero emissions by 2060
- Chubu Electric's Long Term De-carbonization Strategy under Japan's Energy Plan

Panel Discussion:

- LNG Global Short Term Market Dynamic
- The LNG Optimization Challenge: Key Strategies for a Low-Carbon LNG Industry
- Future LNG Supply and Demand in Uncertain Times
- Current State and Future Prospects in the Hydrogen Revolution
- Key Trends and Insights Shaping the Future of Global LNG Shipping
- Building a Competent Workforce for the LNG Industry

Venue

Sofitel Bali Nusa Dua Beach Resort

Golf Game

Sunday, 14 July 2024

MAGNIFIQUE FACILITIES

From initial planning to flawless execution, the MagnifiqueMeetings™ team will leave no detail overlooked, ensuring a successful and sophisticated meeting or event. Complementing state-of-the-art meetings and events, delegates and guests are afforded luxurious facilities, including The Wedding Venue, a fully equipped fitness centre So FIT, So SPA, Vietura Artisan of Anti-Aging aesthetic centre, Nikki Beach Bali, Kids Club and outdoor swimming pool.

Surrounded by swaying palms, white sand beaches and inviting turquoise waters, Sofitel Bali Nusa Dua Beach Resort brings all the key elements of a premium international beachfront resort to one of the world's most sought-after holiday and business travel destinations.

IndoPACIFIC LNG Summit 2024 presents opportunity to network and enjoy a Game of Golf at New Kuta Bali with fellow delegate prior to the opening of the conference.
